

CHAPTER
9

Angles

Lesson 9.1 Understanding and Measuring Angles

Name the angles in two ways.

1.

Angle at B : \angle _____ or \angle _____

2.

Angle at R : \angle _____ or \angle _____

3. \angle YZW : \angle _____ or \angle _____

4. \angle WXY : \angle _____ or \angle _____

Name: _____

Date: _____

Name the angles in two ways.

5. $\angle FGH$: \angle _____ or \angle _____

6. $\angle GHF$: \angle _____ or \angle _____

7. $\angle OKL$: \angle _____ or \angle _____

8. $\angle NOK$: \angle _____ or \angle _____

9. $\angle LMN$: \angle _____ or \angle _____

Name: _____

Date: _____

**Decide which scale you would use to measure each angle.
Fill in the blanks with *inner scale* or *outer scale*.**

10.

11.

12.

13.

14.

15.

Name: _____

Date: _____

Write the measure of each angle in degrees. State whether it is an acute angle or an obtuse angle.

16.

Measure of $\angle GHI =$ _____

17.

Measure of $\angle ABC =$ _____

18.

Measure of $\angle PQR =$ _____

Name: _____

Date: _____

Write the measure of the angle in degrees. State whether it is an acute angle or an obtuse angle.

19.

Measure of $\angle XYZ =$ _____

Estimate and then measure each angle. Complete the table below.

20.

Angle	<i>p</i>	<i>q</i>	<i>r</i>	<i>s</i>
Estimate				
Measure				

Name: _____

Date: _____

Measure the marked angles.

21.

22.

23.

24.

25.

26.

Name: _____

Date: _____

Draw a ray to form each angle.

5. $\angle ABC = 28^\circ$

6. $\angle CDE = 89^\circ$

7. $\angle FGH = 96^\circ$

8. $\angle LMN = 102^\circ$

9. $\angle PQR = 74^\circ$

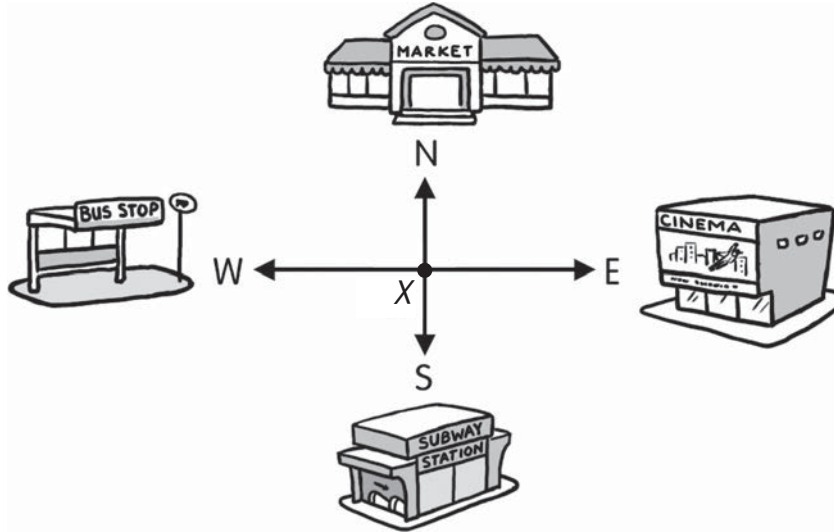

10. $\angle XYZ = 135^\circ$

Lesson 9.3 Turns and Right Angles

Fill in the blanks.

1. You are at point X and you are facing the bus stop. You turn to the right until you face the market. What fraction of a turn do you make? _____
2. You are at point X and you are facing the cinema. You turn until you face the bus stop. What fraction of a turn do you make? _____
3. You are at point X and you are facing the subway station. You turn to the right until you face the cinema. What fraction of a turn do you make? _____
4. You are at point X and you are facing the market. You turn until you face the market again. What angle do you turn through? _____
5. You are at point X and you are facing the cinema. You turn to the right until you face the market. What angle do you turn through? _____

Name: _____

Date: _____

**Use the diagram on the previous page to answer Exercises 6 and 7.
Fill in the blanks.**

6. You are at point X and you are facing the bus stop. You turn to the left until you face the subway station. What angle do you turn through? _____
7. You are at point X and you are facing the subway station. You turn until you face the market. What angle do you turn through? _____

Solve. Draw diagrams to show the directions.

8. Samantha is facing south. She makes a 90° turn to her right. Then she makes a $\frac{3}{4}$ -turn to her left.

Samantha ends up facing _____.

9. Dino starts by facing west. He makes a $\frac{3}{4}$ -turn to his right. Then he makes a 180° turn.

Dino ends up facing _____.

Name: _____

Date: _____

Identify and name the right angle in each of the following triangles.

10.

_____ = 90°

11.

_____ = 90°

12.

_____ = 90°

Name: _____

Date: _____

Measure the marked angles.

13.

14.

Find the marked angles.

15.

$\angle ABC =$

16.

$\angle PQR =$

17.

$\angle DEF =$

18.

$\angle XYZ =$

Name: _____

Date: _____

Look at the example. Then find the measure of each required angle.

Example: $\angle ABD = \angle ABC + \angle CBD$
 $= 56^\circ + 68^\circ$
 $= 124^\circ$

19. Find $\angle PQS$.

20. Find $\angle CDF$.

21. Find $\angle WXZ$.

Put On Your Thinking Cap!

Find the measure of each marked angle.

1.

$ABCD$ is a square.

The measure of $\angle CDE = 25^\circ$

The measure of $\angle ADE =$ _____

2.

$PQRS$ is a rectangle.

The measure of $\angle QPT = 39^\circ$

The measure of $\angle SPT =$ _____

3.

$DEFG$ is a rectangle.

The measure of $\angle HEF = 67^\circ$

The measure of $\angle DEH =$ _____

Name: _____

Date: _____

4. How many right angles can you find in this figure?

_____ right angles

Study the figures (a, b, c, d) and then complete the table.

a.

b.

c.

d.

5.

Figures	Number of Angles Smaller than a Right Angle	Number of Angles Larger than a Right Angle
a.		
b.		
c.		
d.
